Club renovations

Air system: we continue work to improve our air system and may be doing so in coordination with a City of Calgary facilities grant. More information to follow.

Landscaping: you will notice the build up of dirt works around the outside walls... this buildup now reestablishes the original drainage angles.

Lighting: we have replaced 90% of our indoor lights with LED tubes. Light measurements indicate an increase by as much as 300% in lumens on our targets.

CLUB LEASE: All indications are that this will take place BEFORE the new year.

DON'T MISS THIS ONE!
